The following is an Examiner's Statement of Reasons for Allowance:

Examiner acknowledges the request for declaration of an interference in view of the claims found in US patent 6,294,188, a request initially made the "Remarks" filed on November 29, 2001. Examiner finds that the two-way test for interference has not been met, and therefore, there is no interference in fact.

Examiner also acknowledges the submission by applicant of the Shaver et al. reference, and that the disclosure by this reference of the parallel pharmacological activities of UTP and Up₄U at P2Y receptors was particularly helpful in establishing and supporting applicant's arguments *in re* enablement.

In view of the above findings and in view of applicant's narrowing of the scope of the claims, the rejections of record are found to have been overcome and the remaining claims have been found to be allowable as amended.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
